WORK EXPERIENCE

IT Coordinator | Virtual Agent & Automation Solutions 2023- 2026
Babbel GmbH | Germany

- Build chatbots and helpdesk automations to reduce workload and improve resolution times via N8N, Jira Assist and Zapier.
- Managed a small IT support team of 3, overseeing task distribution and performance tracking
- Delivered organized onboarding and offboarding workflows, earning excellent feedback from new employees.
- Handled user management and support in Google Admin Console and Okta, plus ticketing and workspace management in Jira/Atlassian.
- Created and maintained internal knowledge base articles on Confluence
- Supported WiFi and network troubleshooting through Cisco Meraki
- Assisted in automating user provisioning workflows using Okta and Terraform
- Managed hardware and software inventory through Snipe IT.

IT Support 2022- 2023
Uberall | Germany

- Provided technical support and user management in Google Admin Console
- Assisted clients with Gmail, Docs, Sheets, and Calendar troubleshooting
- Documented internal guides and responded to tickets via email
- Managed hardware and software inventory through Snipe IT.

Technical Support Advisor 2020-2022
AT&T/DirecTV | Philippines

- Led a support team of 15+ agents, ensuring performance and compliance
- Handled customer complaints and escalations from U.S. customers
- Trained new agents in CRM tools and email handling

ACHIEVEMENTS & CONTRIBUTIONS

- Improved Jira self-service portal, boosting ticket deflection and reducing response times.
- Developed chatbots, automated workflows, and virtual agents, achieving **80% user satisfaction**.
- Integrated Confluence and Jira, cutting tickets by **56%** via streamlined knowledge access.
- Streamlined onboarding/offboarding, earning **100% positive feedback**.
- Led ticket triage and helpdesk coordination, **maintaining SLA ≤3 days**.
- Implemented meeting room and mobile setups, reducing equipment issues.
- Managed IT inventory with Snipe-IT and rolled out device management tools.
- Created knowledge base articles, reducing user wait times.
- Supported cross-departmental initiatives with Jira Assist and n8n automations.
- Optimized IT budgets through manual repairs, upgrades, and diagnostics.
